Cuadrilla's fracking rig in N. Yorkshire

Fracking Information Evenings

Explaining what fracking is, and its serious impact on communities (see over).

An evidence based talk presenting facts gathered from local and national experts, oil industry insiders, water safety engineers, and doctors.

Feb 2016 7:30pm

Pocklington Tues 9th – Christian Fellowship, Chapmangate YO42 2AY

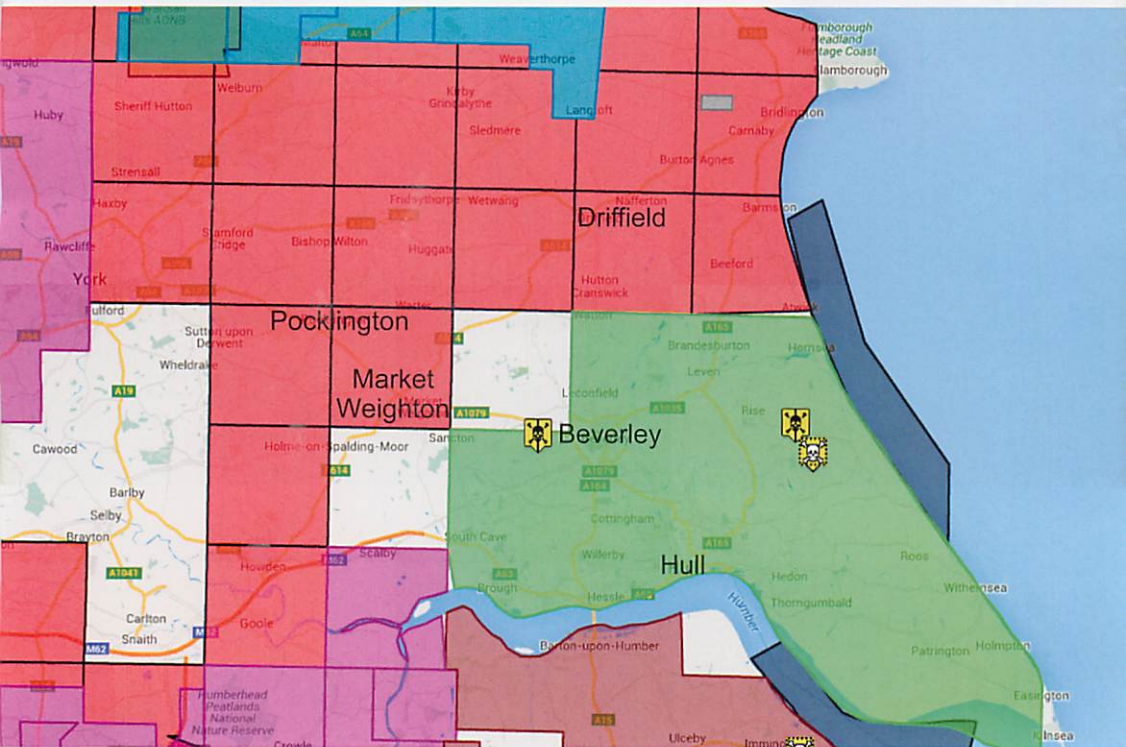

Market Weighton Mon 15th – Community Hall, Station Road YO43 3AY

Free Talk + Discussion

organised by concerned local residents

This area has been licensed for fracking

Yorkshire sacrifice zone: The coloured blocks have been licensed for extreme fossil fuel exploitation. The areas around Pocklington & Market Weighton have been licensed to infamous fracking company Cuadrilla Resources.

Impacts of Fracking include:

- large scale industrialisation of the countryside
- requires thousands of wells
- huge increase in traffic
- noise 24/7
- serious health impacts
- air pollution
- consumes & contaminates water
- earthquakes
- climate change
- ...and more

Find Out

- about recent test-frack problems at an East Yorkshire well including gas leaks, 19 breaches of Environment Agency Permit and an emergency well shutdown
- about Cuadrilla's disastrous record at other UK well sites
- what you can do about it
